2. CONSOLIDATED INCOME STATEMENT AND STATEMENT OF COMPREHENSIVE INCOME

Consolidated income statement

Year ended 31 December (€ million)	Notes	2013	2012
Revenue	15	2,398.5	2,226.5
Of which revenue:			
- From the operation of the infrastructures		2,099.2	2,038.6
- From construction of infrastructures held under concessions		299.3	187.9
Purchases and external charges	16	(435.1)	(322.8)
Employee benefit expenses	17	(217.3)	(220.4)
Taxes (other than income tax)	18	(274.6)	(258.2)
Depreciation and amortisation expenses	19	(394.5)	(387.7)
Provisions		(26.0)	(29.3)
Other operating income (expenses) from ordinary activities	20	3.9	2.4
Operating profit from ordinary activities		1,055.0	1,010.4
Other income (expenses) from operations		-	0.2
Operating profit		1,055.0	1,010.6
Income from cash and cash equivalents	21	16.1	18.0
Finance costs	22	(351.1)	(393.7)
Net finance costs		(335.0)	(375.8)
Other financial income and charges	22	4.1	(6.3)
Share of profit of associates		(5.8)	(5.9)
Income tax expense	23	(275.9)	(230.6)
Profit for the year from continuing operations		442.4	392.0
Profit for the year		442.4	392.0
Attributable to:- Equity holders of the parent company		442.2	391.8
- Non-controlling interests		0.2	0.2
Earnings per share attributable to equity holders of the parent company			
- Basic earnings per share (euros)		3.91	3.47
- Diluted earnings per share (euros)		3.91	3.47

Consolidated statement of comprehensive income

Year ended 31 December (€ million)	**2013**	**2012 (*)**
Profit for the year	442.4	392.0
Items that will not be reclassified subsequently to profit or loss		
Actuarial gains and losses on staff benefits	1.1	(5.7)
Tax on items that will not be reclassified to profit or loss	(0.4)	2.0
Share of gains and losses of associates that will not be reclassified to profit or loss	0.0	0.0
Items that may be reclassified subsequently to profit or loss		
Translation differences	0.0	0.0

4. CONSOLIDATED STATEMENT OF CASH FLOWS

Year ended 31 December (€ million)	Notes	2013	2012
Cash and cash equivalents at the beginning of the year	9	702.3	1,214.0
Profit for the period		442.4	392.0
Net impact of associates		5.8	5.9
Depreciation and amortisation expense and provisions	19	383.7	374.7
Other adjustments		(1.5)	20.9
Gains on disposals		(0.7)	(0.7)
Cash generated by operations		829.6	792.9
Net interest expense		328.5	369.2
Interest paid		(400.9)	(322.1)
Income tax expense	23	275.9	230.6
Income taxes paid		(260.7)	(230.5)
Movement in working capital related to ordinary activities		(35.6)	30.4
Net cash from operating activities (I)		736.8	870.5
Purchases of non-current assets		(344.0)	(254.9)
Purchases of non-current financial assets		(4.5)	(4.2)
Total purchases on non-current assets		(348.5)	(259.1)
Proceeds from disposals of non-current assets		1.1	1.0
Net cash from (used in) investing activities (II)		(347.4)	(258.1)
Dividends paid to the shareholders	25	(400.4)	(1,216.6)
Repayment of borrowings	10	(598.0)	(529.8)
New borrowings	10	430.0	622.4
Net cash used from (used in) financing activities (III)		(568.4)	(1,124.1)
Net increase (decrease) in cash and cash equivalents (I+II+III)		(179.0)	(511.7)
Cash and cash equivalents at the end of the year	9	523.3	702.3

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. GENERAL INFORMATION

Autoroutes Paris-Rhin-Rhône Group is primarily composed of two companies - Autoroutes Paris-Rhin-Rhône (APRR) and Autoroutes Rhône-Alpes (AREA). These companies operate motorway networks, the construction of which they financed under the terms of two separate motorway concession agreements that will expire in 2032. Management contracts define the investment programmes for the two concessions and practices regarding tariffs for the periods covered by these management contracts.

The network covers a total of 2,282 kilometres of motorways, 2,264 kilometres of which are in service.

The motorway concession agreements and the related specifications are the principal instruments defining the relations between the French State, Autoroutes Paris-Rhin-Rhône and Autoroutes Rhône-Alpes: they govern the construction and operation of the motorways, the financial provisions applicable, the term of the concessions and the conditions for the return of the facilities at the end of the concession.

The principal provisions that could influence the operating outlook include:

- the obligation to maintain all structures in good service condition and to use every resource to maintain the continuity of traffic flows under good conditions;
- the provisions setting the toll rates and the rules for changing the rates;
- the clauses stipulating the provisions that will apply in the event of a change in the technical regulations or tax rules applicable to motorway companies; if such a change were likely to seriously compromise the financial position of the concessions, the State and the motorway company would come to a mutual agreement regarding compensation;
- the provisions that would guarantee the repair of the concession works at the expiration date, particularly the establishment, seven years prior to the end of the concession, of a maintenance and replacement programme for the last five years;
- the conditions for returning the assets to the State at the end of the concession and the restrictions on the assets: the assets to be returned shall revert to the State without financial consideration and they may not be sold, pledged as security or subjected to easements;
- the option for the French State of pre-emptively terminating concession contracts and buying back concession contracts: under public law, the State has a unilateral option to terminate concessions in the public interest and under the control of the courts; in addition, the agreement gives the State a buyback right as of 1 January 2012 on the grounds of the public interest.

A separate concession agreement covers the operation of the Maurice Lemaire tunnel by Autoroutes Paris-Rhin-Rhône until 31 December 2068.

The parent company, APRR, is a limited company (*Société Anonyme* - SA) having its registered office at 36, rue du Docteur Schmitt, 21850 Saint-Apollinaire, France.

It is controlled by Eiffage Group through its subsidiary Eiffarie, whose entire capital at 31 December was owned jointly by Eiffage Group and investment funds of Macquarie group.

The 2013 consolidated financial statements were approved by the Board of Directors on 25 February 2014 and shareholders will be invited to approve these financial statements at the General Meeting that is to be held on 24 June 2014.

Significant events in 2013

Decree 2013-436 of 28 May 2013 reformed Article R122-27 of the French Road-System Code (*Code de la Voirie Routière*) determining the calculation of the fee for the use of public property paid by motorway concession operators.

The change made to the formula for calculating this fee resulted in an annual increase of €24.4m, applicable from the second half of 2013, which for accounting purposes led to the recognition of half of this increase in 2013 and half in 2014.

2. SIGNIFICANT ACCOUNTING POLICIES AND METHODS

2.1. Basis of preparation

The consolidated financial statements of APRR Group for the year ended 31 December 2013 have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union on 31 December 2013.

The information contained in the consolidated financial statements is presented in millions of euros unless otherwise indicated.

As a rule, assets and liabilities are reported at cost in the balance sheet, net of any amortisation and depreciation, subject to the following exceptions:

- cash equivalents, financial investments and derivative instruments are measured at fair value;
- provisions for liabilities and charges represent the discounted present value of the estimated expenditure to settle the obligation;
- provisions for employee benefits provided under defined benefit plans are measured on the basis described in Note 2.9 and section 13.

Changes in International Financial Reporting Standards (IFRS) up to the balance sheet date are summarised below.

The following standards, interpretations and amendments adopted by the European Union were applied with effect from 1 January 2013:

- Amendment to IAS 1, “Presentation of Items of Other Comprehensive Income”;
- Amendment to IAS 19, “Employee Benefits”;
- Amendment to IFRS 7, “Disclosures - Offsetting Financial Assets and Financial Liabilities”; and
- IFRS 13, “Fair Value Measurement”.

The following standards, interpretations and amendments did not have a material impact on the Group’s consolidated financial statements except for the amendment to IAS 19, “Employee Benefits”. Details of the impact are provided in Note 13.

A number of new standards, interpretations and amendments adopted by the European Union will be effective for annual periods beginning on or after 1 January 2014. These were not applied for the preparation of the present consolidated financial statements:

- IFRS 10, “Consolidated Financial Statements”;
- IFRS 11, “Joint Arrangements”;
- IFRS 12, “Disclosure of Interests in Other Entities”;
- Amendment to IAS 27, “Separate Financial Statements”;
- Amendment to IAS 28, “Investments in Associates and Joint Ventures”;
- Amendment to IAS 32, “Offsetting Financial Assets and Financial Liabilities”;
- Amendment to IAS 36, “Recoverable Amount Disclosures for Non-Financial Assets”; and
- Amendment to IAS 39, “Novation of Derivatives and Continuation of Hedge Accounting”.

These texts are not expected to have a material impact on the Group’s consolidated financial statements.

The analysis of IFRIC 21, “Levies”, which is in the course of being adopted by the European Union and will be applicable for annual periods beginning on or after 1 January 2014, does not indicate that this pronouncement will have a material impact on the Group’s consolidated financial statements.

IFRS 9, “Financial Instruments”, which could have a material impact on the Group’s consolidated financial statements, was to have applied for annual periods beginning on or after 1 January 2015 if adopted by the European Union, but currently it has no mandatory effective date.

2.2. Basis and methods of consolidation

Companies controlled by the Group are consolidated under the full consolidation method. This occurs when the Group controls directly or indirectly more than 50% of the voting rights or exercises effective control. Control exists when the Group has the power, directly or indirectly, to govern the financial and operating policies of the enterprise so as to obtain economic benefits from its activity.

Companies are accounted for using the equity method when the Group exercises, directly or indirectly, significant influence over the enterprise. When the company is not controlled exclusively, the Group is presumed to exercise significant influence when it controls at least 20% of the voting rights.

APRR Group consists of the parent company Société des Autoroutes Paris-Rhin-Rhône (APRR), Société des Autoroutes Rhône-Alpes (AREA), its 99.84%-owned subsidiary which is consolidated under the full method, and Adelac, a 49.90%-owned associate of AREA that is consolidated under the equity method. It also includes Axxès, which is 28.09% owned by APRR (including 5.30% by AREA) and consolidated under the equity method.

2.3. Non-current assets

Non-current assets are classified in three categories:

- Property, plant and equipment;
- Intangible assets arising from concessions; and
- Other intangible assets.

2.3.1 Property, plant and equipment

Property, plant and equipment consist of "renewable" assets that have a useful life shorter than the concession (toll equipment, signage, remote transmission, video surveillance and computer equipment, motor vehicles and tooling). These assets are reported on the balance sheet at their historical cost, net of accumulated depreciation.

They are depreciated using the straight line method over their useful life, which is estimated at between three and ten years.

2.3.2 Intangible assets arising from concessions

Since the application of IFRIC 12 in 2009, intangible assets arising from concessions correspond to the right of the operator to charge users of the motorway networks held under concession arrangements, which was given in return for building the infrastructures.

The right granted to the operator is measured at the fair value of the construction services of the infrastructures, to which are added borrowing costs incurred during the period of construction and from which are deducted all remuneration received in cash, i.e. subsidies received from the party having granted the concession.

The intangible asset is amortised over the term of the concession using an appropriate method to reflect the rate at which the economic benefits derived from the service concession arrangement are consumed, as from the date the infrastructure is brought into service.

2.3.3 Other intangible assets

Other intangible assets comprise mainly software applications that are amortised using the straight-line method over their useful life, estimated at between three and five years.

2.4. Borrowing costs

Borrowing costs incurred during the period of construction of a qualifying asset are capitalised as part of the cost of the asset. In the Group's case, qualifying assets are intangible assets arising from concessions for which construction took longer than 12 months to complete.

In respect of qualifying assets:

- interest is capitalised on the basis of the average monthly value of the assets or work in progress for which a payment has been made during the year;
- the specific effective interest rate for the loan is applied to this monthly average disbursement, if the qualifying asset has been financed by a specific loan, or the weighted average effective interest rate for other loans for qualifying assets not financed by a specific loan.

2.5. Asset impairment

Given the legal terms of the existing concession agreements and the financial provisions governing these agreements, two distinct cash-generating units (CGU) have been identified: one for the two APRR concessions and the other for the AREA concession.

Impairments tests are performed when there is any indication that an asset may be impaired. When there is an indication of impairment, the net carrying amount of the asset is compared to its recoverable amount, which is defined as the higher of an asset's fair value less costs to sell and its value in use. The value in use is the discounted present value of the future cash flows expected to be generated by the cash-generating unit, taking into account the asset's residual value when appropriate. The present value of this cash flow is determined using a discount rate appropriate to the nature of the cash-generating unit.

2.6. Financial instruments

2.6.1 Financial assets and liabilities

Financial assets comprise available-for-sale financial assets, held-to-maturity financial assets, financial assets at fair value through profit or loss, derivative instruments, operating loans and receivables, and cash and cash equivalents.

Financial liabilities comprise financial liabilities measured at amortised cost, financial liabilities at fair value through profit or loss, other financings and bank facilities, derivative instruments, and operating liabilities.

The above financial assets and financial liabilities are recognised and measured in accordance with IAS 39, “Financial Instruments: Recognition and Measurement”.

2.6.2 Recognition and measurement

a) Held-to-maturity financial assets are investments with a determinable payment and fixed maturity. After initial recognition at fair value, these assets are measured and accounted for at amortised cost using the effective interest method, less any impairment losses.

b) Available-for-sale financial assets comprise mainly non-consolidated participating interests (included under other non-current financial assets) and marketable securities not meeting the definition of the other categories of financial assets. After initial recognition, these assets are measured at fair value, any change in fair value being recognised directly in equity except for impairment losses. When these assets are derecognised, any cumulative gain or loss that has been recognised in equity is reversed to profit or loss (included under other financial income and expenses).

c) Financial assets and financial liabilities at fair value through profit or loss comprise assets and liabilities that the Group intends to sell or repurchase in the near term to generate a gain as well as those assets that the Group has opted to designate as at fair value. Gains and losses on these assets correspond to interest, dividends, changes in fair value and gains or losses on disposal.

d) Cash and cash equivalents are also measured at fair value through profit or loss. They include cash in hand, cash at bank, short-term deposits on the date of initial recognition, and very short-term UCITS not presenting significant risk of an impairment in value.

Bank facilities repayable on demand form an integral part of the Group's treasury management and constitute a component of cash positions for the purpose of the statement of cash flows.

e) Loans and other financial liabilities are recognised initially at fair value less transaction costs. Subsequently, they are measured at amortised cost using the effective interest rate method.

f) Derivative financial instruments held by the Group to hedge its exposure to risks of changes in interest rates in respect of certain variable rate loans are recognised initially at fair value. Attributable transaction costs are recognised in profit or loss when incurred. Subsequent changes in fair value, obtained from the financial institutions having issued the instruments, are recognised directly in equity for the effective portion of the derivative instruments designated as cash flow hedges.

Derivative instruments, when they have been entered into to hedge risks of changes in fair value arising from the interest rate risk on certain fixed rate loans, are recognised initially at fair value. Subsequent changes in fair value, obtained from the financial institutions having issued the instruments, are recognised directly in profit or loss, the hedged loans being re-measured to reflect the interest risk and any changes are recognised in profit or loss.

Changes in fair value of the ineffective portion are recognised in profit or loss. Instruments not qualifying as hedging instruments for accounting purposes are recognised initially and measured subsequently at fair value, with changes in fair value recognised in profit or loss under "other financial income and charges".

The gain or loss relating to the effective portion of a hedge is recognised as a component of borrowing costs in the periods during which the hedged items affect the income statement.

The valuation linked to the credit risk of derivative instruments is calculated from past default probabilities based on the calculations produced by a first-rate credit rating agency, to which are then applied a collection rate.

2.7. Inventories

Inventories are valued applying the weighted average cost method. An impairment loss is recognised when net realisable value is less than the cost of acquisition.

2.8. Trade and other receivables

Trade and other receivables have due dates under six months. They are measured at face value. Appropriate allowances for estimated irrecoverable amounts are recognised when it is uncertain whether these amounts can be collected.

2.9. Employee benefits

2.9.1 Retirement indemnities

Employee benefits under defined benefit plans concern retirement indemnities. The actuarial method used to measure these obligations is the projected unit credit method.

Assets allocated to cover these obligations are measured at fair value and deducted from the actuarial obligation reported on the balance sheet.

Actuarial gains and losses result from the effects of changes in actuarial assumptions and from experience adjustments (differences between the previous actuarial assumptions and what has actually occurred). These actuarial differences are now recognised directly in other comprehensive income.

Past service cost corresponding to benefits vested when the company introduces a new defined benefit plan or when it modifies the level of benefits for an existing plan is now recognised directly in profit or loss.

2.9.2 Commitments arising under the early retirement scheme

A provision has been recognised in respect of the Group's commitments arising from the agreement signed in 2007 regarding early retirement. Payments that are to be made are accounted for as termination benefits.

The provision was determined on an actuarial basis for the population concerned. The average retirement age was estimated at 62 years (given the particular characteristics of the population). The same discount hypotheses were used as for retirement indemnities.

The provision covers the replacement indemnity payable to the employee until the effective retirement date for that part that is borne by the employer.

2.10. Provisions

2.10.1 Non-current provisions

Non-current provisions comprise provisions for retirement indemnities and for long service medals (see Note 2.9 above) as well as provisions for maintaining infrastructures in condition.

Contractual obligations for maintaining infrastructures in condition require provisions to be recognised. These provisions cover mainly the cost of heavy repairs to the surface courses. They are determined based on a multi-year spending programme, which is revised each year. This spending is re-measured by applying appropriate indexes (mainly the TP09 index).

Provisions are also recognised when it is established that repairs must be carried out to specific engineering works to remedy problems.

These provisions are recognised at their present value. The cost of discounting provisions is recognised under other finance costs.

The current portion of these provisions is classified as current provisions.

2.10.2 Current provisions

Current provisions comprise mainly:

- the current portion of provisions for maintaining infrastructures in condition;
- the current portion of provisions for retirement indemnities and for long service medals; and

- other provisions for liabilities and charges, which include the provisions for early retirement (see Note 2.9 above), for staff disputes and for disputes related to the activities (i.e. disputes with customers, sub-contractors and suppliers).

2.11. Leasing agreements

2.11.1 Operating leases

When assets are made available to the Group under operating leases (equipment, offices, buildings and parking lots), lease payments are recognised by spreading all expenses related to these leases, including set-up costs, over the term of the lease agreement using the straight line method.

When assets built by the Group are made available under operating leases (fibre optic cables leased to telecommunication operators, commercial facilities leased to operators at rest areas), these assets are recognised as assets in the balance sheet and are accounted for in the same way as other items of property, plant and equipment. Income guaranteed under these lease agreements is recognised over the term of the lease agreements using the straight line method. Conditional rents are recognised when earned.

2.11.2 Finance leases

Assets made available under finance leasing agreements are recognised as non-current assets when the lease agreement transfers substantially all the risks and rewards incident to ownership to the Group, the other side of the entry being to recognise the corresponding liability.

Assets made available under finance leases are depreciated over their estimated useful life.

2.12. Revenue and other income

Revenue from the operation of infrastructures is generated mainly by the tolls collected for the use of these infrastructures. It is recognised as and when the corresponding services are provided.

As required by IFRIC 12, revenue from the construction of infrastructures held under concessions includes the income relating to construction services subcontracted by the Group (determined using the percentage of completion method as required by IAS 11). Related costs are included under purchases and external charges.

2.13. *Income tax*

Income tax includes current tax and deferred tax.

Income tax is calculated in accordance with tax regulations applicable in France.

As a rule, deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax is calculated at the rates that are expected to apply in the period when the liability is settled or the asset realised insofar as these rates are known at the balance sheet date.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which to obtain relief.

Deferred tax assets and liabilities are offset, regardless of the period when expected to reverse, given the existence of a tax group, provided these assets and liabilities relate to transactions entered into since the election to be assessed on a group basis.

2.14. *Dividends*

Dividends distributed to the Company's shareholders are recognised as a liability in the consolidated financial statements in the period when these dividends have been approved by the Shareholders' General Meeting.

2.15. *Segment reporting*

The Group has a single activity consisting of the operation of motorway networks under concession agreements. In the case of the two main concessions consolidated under the full method, the agreements expire on the same date in 2032. These networks are located exclusively in France. All key indicators for the Group and its performances are analysed by management at consolidated level. Furthermore, the Toll activity accounts for 97% of revenue (excluding revenue from the construction of infrastructures held under concessions), so that ancillary activities are not material as regards the Group's performances. Consequently, no information broken down by business segment or by geographic region is provided in the consolidated financial statements.

2.16. *Basis of presentation*

In the balance sheet, assets and liabilities are analysed and reported as either current or non-current items.

In the income statement, operating expenses are analysed and reported according to their nature.

Operating profit on ordinary activities, operating profit, finance costs and net finance costs reported in the income statement and in the statement of comprehensive income are presented in accordance with recommendation 2009-R-03 issued by the French National Accounting Board (*Conseil National de la Comptabilité – CNC*).

Net finance costs represent total finance cost on borrowings less financial income generated by cash and cash equivalents.

2.17. Tax credit for competitiveness and employment

The third Additional Budget Act for 2012 introduced a tax credit for competitiveness and employment (*Crédit d'Impôt pour la Compétitivité et l'Emploi - CICE*) effective from 1 January 2013.

The income receivable in respect of this tax credit is recognised to match the pace at which corresponding payroll costs are committed.

Income relating to this tax credit is offset against employee benefit expense in the income statement.

3. FINANCIAL RISK MANAGEMENT

Currency risk

The Group operates principally in the countries of the euro zone, essentially in France. It is therefore exposed to a limited currency risk on the transactions to which it is party.

All of the Group's borrowings are denominated in euros.

Liquidity risk

The liquidity risk is mitigated by the recurring nature of the cash flow and debt repayments.

To finance its day-to-day operations, the Group has negotiated a €719.5 million syndicated loan bearing a variable interest rate. At 31 December 2013, no amount had been drawn down against this loan.

A bond issue was made in April 2013 as part of the €6 billion EMTN programme put into place in October 2007. This issue consisted of €300 million of variable-rate bonds maturing in May 2016.

To date €3,750 million has already been issued in connection with this programme.

The Group has given undertakings to Caisse Nationale des Autoroutes (CNA) and the members of the banking pool to comply with the following ratios:

- Net debt will be less than 7 times EBITDA
- EBITDA will be more than 2.2 times net financial charges.

These two ratios were 4.6 times and 4.5 times, respectively, at 31 December 2013.

Non-compliance with either of these ratios would be regarded as a default event, triggering the early repayment of APRR's entire debt.

The Group's long-term debt is rated BBB (Positive outlook) by Standard & Poor's and BBB+ (Stable outlook) by Fitch.

Were these ratings to be downgraded, this would push up spreads and interest rates on the banks loans and on the bonds issued in connection with the EMTN programme.

An analysis of financial liabilities is provided in Note 10.

Interest rate risk

At 31 December 2013, 85% of the Group's gross borrowings bore fixed rates, 8% fixed rates on a nominal amount indexed to inflation, and 7% variable rates.

Based on borrowing at the year-end, the Group does not have significant exposure in terms of interest expenses to a rise in interest rates.

A sensitivity analysis was performed, which indicates that:

- Based on borrowings at 31 December 2012, a 100 basis point change in variable rates would impact finance costs by €1.4 million and net profit by €0.9 million.

- Based on borrowings at 31 December 2013, a 100 basis point change in variable rates would impact finance costs by €2.6 million and net profit by €1.6 million.

Inflation risk

As toll fares are indexed to the annual retail price index, excluding tobacco, the Group is exposed to a fall in inflation.

This exposure is partly mitigated to the extent that a portion of the Group's borrowing bear a rate fixed on a nominal indexed to inflation.

The portion of the borrowings in question amounted to 8% at 31 December 2013 (compared with 12% at 31 December 2012).

In this way, the Group benefits from a partial hedge of the risk attendant to weaker inflation. If inflation is weaker, this will lead to a lower increase in toll fares but it will also reduce finance costs in the portion of the borrowings indexed to inflation, as a result reducing the overall negative impact of weaker inflation on the Group's earnings.

Credit risk

(€ million)	**2013**	**2012**
Past dues: up to 3 months	3.5	3.5
Past dues: between 3 and 6 months	1.5	1.0
Past dues: over 6 months	3.9	3.7
Total past dues	8.9	8.2

Apart from the above amounts, past dues concern a very large number of customers given the activities carried on by the Group. It is therefore impossible to assess the overall financial solidity of these customers.

The provisioning rate in respect of past dues is around 47% of the total amount receivable.

For the purpose of managing its cash position and hedging transactions, the Group enters into relations only with the most reputable financial institutions.

Risk management

Risk management is aimed at identifying, assessing, processing and monitoring the risks to which the Group is exposed. These risks are of diverse nature: operational, financial, strategic, human, regulatory and reputational.

Risk management is based on a structured, documented process and on the risk management policy as defined by top management.

The mapping of the risks to which the Group is exposed was updated in 2012.

4. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

When preparing the consolidated financial statements, reliance is placed on estimates and assumptions that could affect the amounts of the assets and liabilities at the balance sheet date and income and charges for the period.

These estimates take into account economic data as well as assumptions that may vary over time, and contain elements of uncertainty.

The estimates concern essentially the determination of recoverable amounts of the assets, retirement obligations, the fair value of derivative instruments, and current and non-current provisions.

5. NON-CURRENT ASSETS

2013

(€ million)	At 1 January	Increases	Decreases	At 31 December
a) Cost or valuation				
Property, plant and equipment	765	41	(53)	753
Intangible assets arising from concessions	12,527	308	(2)	12,833
Other intangible assets	165	14	(1)	178
Investments in associates	4	2	-	6
Unlisted participating interests	4	0		4
Other investments	-			-
Loans	4	1	(0)	5
Other financial assets	77	4	(3)	79
Total other financial assets	86	5	(3)	88
Total	13,548	370	(60)	13,858

(€ million)	At 1 January	Increases	Decreases	At 31 December
b) Accumulated depreciation and impairment (1)				
Property, plant and equipment	(598)	(49)	53	(594)
Intangible assets arising from concessions	(5,575)	(343)	2	(5,915)
Other intangible assets	(128)	(10)	1	(137)
Investments in associates	-	-	-	-

Other financial assets	-	-	-	-
Total other financial assets	(2)	-	-	(2)
Total	(6,302)	(402)	56	(6,648)
Carrying value (a-b)	7,245	(32)	(4)	7,209

(1) No impairment loss was recognised in 2013.

The increase in intangible assets arising from concessions in 2013 was due notably to new constructions (construction of Gannat-Vichy section and connection between the A46 and A466 motorways), to work widening motorway sections (A36, A46 North, A71 and A43 motorways) and the addition of new road exchanges.

It includes capitalised borrowing costs amounting to €5.4 million (2012: €3.0 million).

2012

(€ million)	At 1 January	Increases	Decreases	At 31 December

(1) No impairment loss was recognised in 2012.

(€ million)	**31 December 2013**	**31 December 2012**
Works contracts signed but not executed	170.1	151.3

Furthermore, from 2014 to 2018, the Group is committed to undertaking work to build and widen motorways and to create new interchanges that are expected to cost €473 million.

6. INVESTMENTS IN ASSOCIATES

Investments in associates consist of the Group's shareholding in Adelac (which has been awarded the concession for a 19-kilometre section of the A41 motorway between Villy le Pelloux-Saint Martin-Bellevue and Saint-Julien-en-Genevois) and Axxès (which markets and manages electronic toll subscriptions for heavy goods vehicles).

Key financial data for associates are summarised in the table below:

(€ million)	**Country**	**Total assets**	**Borrowings**	**Capital and reserves**	**Revenue**	**Net profit**	**% held**
31 December 2013							
Adelac	France	788.1	779.4	5.9	41.5	(16.2)	49.90%
Axxès	France	306.6	13.4	15.9	951.3	(1.8)	28.09%
Total		1,094.7	792.8	21.8	992.8	(18.0)	
31 December 2012							
Adelac	France	798.4	773.2	22.1	36.6	(19.9)	49.90%
Axxès	France	271.0	5.7	17.4	885.7	2.5	28.09%
Total		1,069.4	778.9	39.5	922.3	(17.4)	

Changes in investments in associates during the period are summarised in the table below:

(€ million)	2013	2012
At 1 January	3.7	16.6
Share of net profit (loss)	(5.8)	(5.9)
Dividends paid	-	-
Share of gains and losses recognised directly to equity	8.0	(7.0)
At 31 December	5.8	3.7

7. TRADE AND OTHER RECEIVABLES

(€ million)	**31 December 2013**	**31 December 2012**
Trade receivables - Tolls	78.7	68.6
Trade receivables - Other activities	50.9	47.5
Impairment losses	(3.5)	(3.2)
Total	126.1	112.9

8. OTHER CURRENT ASSETS

(€ million)	**31 December 2013**	**31 December 2012**
State - Value added tax	50.7	34.2
Sundry receivables	116.3	106.8
Prepayments	38.9	26.7
Other	1.2	0.7
Total	207.1	168.4

Sundry receivables comprise mainly receivables linked to inter-company toll payments.

Prepayments concern mainly the fee for the use of public property.

9. CASH AND CASH EQUIVALENTS

(€ million)	**31 December 2013**	**31 December 2012**
Cash at bank and in hand	124.8	190.1
Cash equivalents	398.5	512.2
Total	523.3	702.3

Cash and cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and that present negligible risk of changes in value.

10. FINANCIAL ASSETS AND FINANCIAL LIABILITIES

In 2013, one new bond issue amounting to €300 million was completed in connection with the EMTN programme. In addition, a new loan amounting to €75 million was arranged with the European Investment Bank (EIB).

Loans totalling €348 million were repaid to Caisse Nationale des Autoroutes (CNA) along with a €250 million bank loan in 2013. At 31 December 2013, no amount had been drawn against the €719.5 million syndicated loan, while there were no repayments in the year ended.

Net debt analysed by maturity and related interest receivable and payable

At 31 December 2013 (€million)	**Carrying value**	**Capital and interest movements**	Less than 1 year	1 to 2 years	2 to 3 years	3 to 4 years	4 to 5 years	After 5 years
Cash and cash equivalents

Net debt	**-6,797.0**							

Capital and interest movements excluding loan issuance costs, issuance premiums and other items not involving the movement of funds.

Capital and interest movements in the above table concern the debt as reported on the balance sheet at 31 December 2013. They do not reflect any early repayments or new loans that may occur in the future.

Interest movements include movements relating to derivative instruments reported as assets and liabilities (i.e. interest rate swaps). They were not discounted to their present value.

Interest movements for variable rate loans are based on interest rates ruling on 31 December 2013. Movements for loans with fixed rates on an indexed nominal are based on projected annual inflation of 2.25%.

Short term borrowings and other debts comprise mainly accrued interest, movement in respect of which are included in the interest referred to above. The remainder, amounting to €120 million, corresponds to outstanding commercial paper that has been issued.

At 31 December 2012 (€million)	**Carrying value**	**Capital and interest movements**	Less than 1 year	1 to 2 years	2 to 3 years	3 to 4 years	4 to 5 years	After 5 years

The fair value of the derivative instruments was determined on the basis of the mark-to-market value communicated by the different counterparties.

At 31 December 2013, the portfolio of derivative instruments held by the Autoroutes Paris-Rhin-Rhône Group consisted of:

- a remaining group of five derivative contracts (including one swap receiving a fixed rate and paying a variable rate, designated as a fair value hedge, with a nominal of €75 million and maturing in 2018, along with three options entered into to mitigate to some extent the exposure to an increase in interest rates, and a swap paying a fixed rate and receiving a variable rate, resulting from the exercise of the swaption that matured in April 2010, treated as autonomous instruments for accounting purposes) entered into in the second half of 2005 as part of a variable rate programme scaled back to €300 million at 30 June 2010, matched to the following loans:

  - €208.4 million against the 4.50% CNA loan maturing on 28 March 2018; and
  - €91.6 million until April 2020, corresponding to a portion of debt equivalent to the 4.50% CNA loan that matured on 25 April 2010;

- five interest rate swaps entered into in March 2008 for a total nominal amount of €500 million that are backed to a loan for the same amount arranged in August 2007 and for which interest periods are identical. Under these swaps, the Company pays a fixed rate and receives a variable rate until they mature in August 2014; hedge accounting is applied to these instruments; and

- one swap entered into in the first half of 2009 for a nominal amount of €250 million, under the terms of which the Company pays a fixed rate and receives a variable rate, for which the maturity date is in July 2014 and for which the interest periods are matched to those of a loan for the same nominal amount arranged in July 2008. Following the early repayment of this loan in July 2013 and since the €300 million of variable-rate bonds issued in April 2013 presents the same characteristics in terms of interest periods and interest rate basis,

this swap, which qualified as a hedging instrument, now covers interest payments for the new bond issue within the limit of a nominal amount of €250 million.

In the second half of 2013, a swap entered into in 2004, under the terms of which the Company received a fixed rate on a nominal amount of €300 million and paid a fixed rate on this nominal indexed to inflation as well as inflation capitalised as at maturity, was terminated early in return for a balancing cash payment of €44.5 million by the Group. At 31 December 2012, this swap had a negative market value of €51.2 million.

Taking into account the credit risk in the measurement of the fair value of derivative instruments, as required by IFRS 13, did not have a material impact.

Current provisions	**71.4**	**2.2**	**(28.2)**	**(0.2)**	**(0.9)**	**44.3**

(*) Restated to reflect the change of accounting method described in Note 13.

13. EMPLOYEE BENEFITS PROVIDED UNDER DEFINED BENEFIT PLANS AND LONG-TERM BENEFITS

These benefits consist of retirement indemnities and long service medals.

Assumptions

The expected return on plan assets was 3.00% in 2012 and 3.25% in 2013.

The actual return on plan assets was 3.49% in 2012 and 3.40% in 2013.

Changes during the year

	Retirement indemnities		***Long service medals***	
	2013	**2012**	**2013**	**2012**
Discount rate	3.25%	3.00%	3.25%	3.00%
Expected rate of inflation	2.00%	2.00%	2.00%	2.00%
Expected rate of salary increases	3.00%	3.00%	3.00%	3.00%
Mortality tables for men	TH 08-10	TH 06-08	TH 08-10	TH 06-08
Mortality tables for women	TF 08-10	TF 06-08	TF 08-10	TF 06-08
Retirement age for managers	63 years	63 years	63 years	63 years
Retirement age for non-managers	63 years	63 years	63 years	63 years
Social security charges	45.0%	45.0%	45.0%	45.0%

Charge for the year

(€million)	Retirement indemnities 2013	Retirement indemnities 2012	Long service medals 2013	Long service medals 2012
Cost of past service	2.1	1.7	0.1	0.1
Net interest on provision (asset)	1.0	1.2	0.0	0.1
Cost of benefits recognised in income statement	3.1	2.8	0.1	0.2
Immediate recognition of (gains) losses	0.0	0.0	0.0	0.1
Charge for accounting purposes	3.1	2.8	0.2	0.2

The corresponding charge is included under employee benefit expenses in the income statement.

Other comprehensive income (OCI)

(€million)	Retirement indemnities 2013	Retirement indemnities 2012	Long service medals 2013	Long service medals 2012
Actuarial losses (gains) due to experience adjustments	(0.2)	0.3	-	-
Actuarial losses (gains) due to changes in actuarial assumptions	(1.0)	5.4	-	-
Actuarial losses (gains) recognised in OCI in the period	(1.2)	5.8	-	-
(Higher) lower return on plan assets than based on discounting	0.1	(0.1)	-	-
Total (gain) loss recognised in OCI for the period	(1.1)	5.7	-	-

Cost of defined benefits

(€million)	Retirement indemnities 2013	Retirement indemnities 2012	Long service medals 2013	Long service medals 2012
Cost of service	2.1	1.7	0.1	0.1
Net interest on provision (asset)	1.0	1.2	0.0	0.1
Immediate recognition of (gains) losses	0.0	0.0	0.0	0.0
Total (gain) loss recognised in OCI for the period	(1.1)	5.7	0.0	0.0
Total cost of defined benefits	2.0	8.5	0.2	0.2

Analysis of provision recognised for accounting purposes

	Retirement indemnities		*Long service medals*	
(€million)	**2013**	**2012**	**2013**	**2012**
Actuarial obligation at 1 January	(36.7)	(36.1)	(1.3)	(1.3)
Fair value of plan assets	2.4	2.6	0.0	0.0
Assets (provision) at end of period	(34.3)	(33.5)	(1.3)	(1.3)

Reconciliation of provision recognised for accounting purposes

	Retirement indemnities		*Long service medals*	
(€million)	**2013**	**2012**	**2013**	**2012**
Asset (provision) at the start of the period	(33.5)	(26.0)	(1.3)	(1.3)
Charge for period recognised for accounting purposes	(3.1)	(2.8)	(0.2)	(0.2)
Gain (loss) recognised in OCI	1.1	(5.7)	0.0	0.0
Benefits paid directly by the company	1.2	1.1	0.2	0.2
(Asset) provision at the end of the period	(34.3)	(33.5)	(1.3)	(1.3)

Reconciliation of actuarial obligation

	Retirement indemnities		*Long service medals*	
(€million)	**2013**	**2012**	**2013**	**2012**
Obligation at the start of the period	(36.1)	(28.7)	(1.3)	(1.3)
Cost of past services	(2.1)	(1.7)	(0.1)	(0.1)
Interest on actuarial obligation	(1.1)	(1.3)	(0.0)	(0.1)
Actuarial (gain) loss - experience	0.2	(0.3)	(0.0)	(0.0)
Actuarial (gain) loss - demographic assumptions	(0.0)	0.0	0.0	0.0
Actuarial (gain) loss - financial assumptions	1.0	(5.4)	0.0	(0.1)
Benefits paid out of assets	0.2	0.3	0.0	0.0
Benefits paid by the company	1.2	1.1	0.2	0.2
Obligation at the end of the period	(36.7)	(36.1)	(1.3)	(1.3)

Reconciliation of plan assets

(€ million)	Retirement indemnities 2013	Retirement indemnities 2012	Long service medals 2013	Long service medals 2012
Fair value at the start of the period	2.6	2.6	-	-
Net interest on plan assets	0.1	0.1	-	-
(Higher) lower return on plan assets than based on discounting	(0.1)	0.1	-	-
Benefits paid	(0.2)	(0.3)	-	-
Fair value at the end of the period	2.4	2.6	-	-

Benefits in respect of retirement indemnities and long service medals totalling €1.5 million are expected to be paid in 2014.

Sensitivity analysis

A 0.5 point change in the discount rate has an impact of 5% on the actuarial obligation in respect of retirement indemnities.

Summary of impacts of change in accounting method resulting from the application of IAS 19 (revised)

	31 December 2012			1 January 2012		
(€million)	**Reported**	**Impact**	**Restated**	**Reported**	**Impact**	**Restated**
Capital and reserves

Other non-current liabilities	54.3	-	54.3	62.0	-	62.0
Total non-current liabilities	7,270.0	3.2	7,273.2	7,067.8	(0.6)	7,067.2
Current liabilities						
Trade and other payables	104.5	0.0	104.5	113.2	0.0	113.2
Borrowings	337.0	0.0	337.0	224.9	0.0	224.9
Non-current borrowings due within one year	352.1	0.0	352.1	538.9	0.0	538.9
Current tax liability	4.8	0.0	4.8	0.0	0.0	0.0
Provisions	71.4	0.0	71.4	66.9	0.0	66.9
Other current liabilities	212.8	0.0	212.8	204.2	0.0	204.2
Total current liabilities	1,082.7	0.0	1,082.7	1,148.1	0.0	1,148.1
Total shareholders' equity and liabilities	8,238.2	0.0	8,238.2	8,926.9	0.0	8,926.9
Total assets	8,238.2	(0.0)	8,238.2	8,926.9	0.0	8,926.9

14. OTHER CURRENT AND NON-CURRENT LIABILITIES

(€million)	**31 December 2013**	**31 December 2012**
Payments on account	13.8	11.7
Tax and social security	161.8	150.4
Deferred income	8.5	9.0
Other debts	47.4	41.6
Other current liabilities	231.5	212.8
Deferred income	52.3	54.3
Other non-current liabilities	52.3	54.3

15. REVENUE

(€ million)	2013	2012
Toll revenue	2,028.2	1,971.1
Rental income from commercial facilities	41.0	37.7
Revenue from leasing telecommunication installations	13.3	13.2
Other	16.8	16.6
Revenue excluding construction services	2,099.2	2,038.6
Construction services (IFRIC 12)	299.3	187.9
Total	2,398.5	2,226.5

Rental income from commercial facilities is collected from third parties that operate the commercial establishments located at the rest areas.

Revenue from leasing telecommunication installations corresponds essentially to leases entered into with telecommunication operators for the use of fibre optic cables and towers.

16. PURCHASES AND EXTERNAL CHARGES

(€ million)	2013	2012
Energy	(16.3)	(15.6)
Supplies	(11.3)	(8.5)
Spare parts	(6.0)	(5.8)
Infrastructure maintenance	(23.7)	(25.8)
Routine maintenance	(19.0)	(18.5)
Construction services (IFRIC 12)	(299.3)	(187.9)
Other external charges	(59.5)	(60.7)
Total	(435.1)	(322.8)

17. EMPLOYEE BENEFIT EXPENSES

(€ million)	2013	2012
Wages and salaries	(118.4)	(118.6)
Social security contributions and deferred benefits	(74.2)	(74.2)
Discretionary employee profit sharing	(5.9)	(9.4)
Mandatory employee profit sharing	(18.2)	(14.5)
Employer’s contribution to profit sharing plans	(0.6)	(3.7)
Total	(217.3)	(220.4)

Headcount	2013	2012
Management grade	527	521
Supervisor grade	1,783	1,781
Workers and office staff	1,291	1,344
Total	**3,601**	**3,646**

18. TAXES (OTHER THAN INCOME TAX)

(€million)	2013	2012
Regional development tax	(146.4)	(145.2)
Territorial economic contribution	(59.3)	(57.4)
Fee for the use of public property	(62.4)	(49.0)
Other taxes and duties	(6.6)	(6.6)
Total	(274.6)	(258.2)

The Territorial Economic Contribution is composed of two different taxes: a Company Real Property Contribution (*Cotisation Foncière des Entreprises - CFE*), assessed only on real estate assets, and a Company Contribution on the Added Value (*Cotisation sur la Valeur Ajoutée des Entreprises - CVAE*). Since 2010, these two components of the Territorial Economic Contribution have been treated as operating expenses in the same way as the local business tax before it was repealed.

The fee for the use of public property is based on the revenue, the rental value and the length of the motorway network in kilometres, and is therefore treated as an operating expense.

The regional development tax is based on the number of kilometres travelled and is therefore treated as an operating expense.

19. DEPRECIATION AND AMORTISATION EXPENSE

(€million)	2013	2012
Amortisation of other intangible assets	(9.9)	(9.8)
Amortisation of intangible assets arising from concessions	(335.3)	(326.9)
Depreciation of property, plant and equipment (other than assets made available under finance leases)	(46.9)	(48.5)
Depreciation of property, plant and equipment made available under finance leases	(2.4)	(2.5)
Total	(394.5)	(387.7)

20. OTHER OPERATING INCOME AND EXPENSES

(€ million)	2013	2012
Impairment losses recognised in respect of current assets	(0.1)	(0.3)
Gains on disposals	0.7	0.7
Other income	7.0	6.0
Other expenses	(3.7)	(4.0)
Other operating income (expenses) from ordinary activities	3.9	2.4

21. INCOME FROM CASH AND CASH EQUIVALENTS

(€ million)	2013	2012
Net proceeds from the disposal of marketable securities	0.0	0.2
Income from debt-related derivative instruments	0.1	0.1
Other financial income	16.0	17.7
Total	16.1	18.0

22. FINANCE COSTS

(€ million)	2013	2012
Interest and other financial charges	(330.2)	(375.5)
Charges on debt-related financial instruments	(26.3)	(21.2)
Financial charges transferred	5.4	3.0
Finance costs	(351.1)	(393.7)
Other financial income	14.3	5.7
Other financial charges	(10.3)	(12.0)
Other financial income and charges	4.1	(6.3)

Fees in respect of unutilised credit lines came to €5.0 million in 2013 (2012: €3.7 million).

23. INCOME TAX EXPENSE

Tax charge for the year

(€million)	2013	2012
Current tax	(287.1)	(258.6)
Deferred tax credit (charge)	11.3	28.1
Total	(275.9)	(230.6)

Reconciliation of theoretical tax charge to effective tax charge

(€million)	2013	2012
Net profit for the year	442.4	392.0
Income tax expense	275.9	230.6
Share of profit of associates	5.8	5.9
Profit before tax	724.0	628.5
Applicable tax rate	34.43%	34.43%
Theoretical tax on the profit before tax determined above	249.3	216.4
Permanent differences	(1.0)	0.2
Other differences	27.5	14.0
Income tax expense recognised	275.9	230.6

Analysis of deferred tax assets and liabilities

(€million)	2013	2012 (*)
Deferred tax assets resulting from		
IFRIC 12	(140.4)	(138.2)
Provisions for retirement indemnities	(12.6)	(10.9)
Provisions for holiday pay	(6.5)	(5.9)
Employee profit sharing	(7.0)	(5.3)
Swap reversals	(0.6)	(1.0)
Other	(8.0)	(18.2)
Deferred tax assets	(175.0)	(179.5)
Deferred tax liabilities arising from		
Charges capitalised, net of depreciation	142.0	143.4
Depreciation of renewable fixed assets	41.8	41.8
Regulated provisions	20.8	19.8
Provisions for replacement	26.5	31.1
Other	2.1	3.3
Deferred tax liabilities	233.3	239.5
Net deferred tax liabilities	58.3	60.0

(*) Restated to reflect the change of accounting method described in Note 13.

24. EARNINGS PER SHARE

The average number of shares was calculated taking into account the number of days elapsed since the dates of the last transactions having affected the capital.

Earnings per share are calculated by dividing profit or loss attributable to ordinary equity holders of the parent entity by the weighted average number of ordinary shares outstanding during the year.

(€ million)	2013	2012
Net profit for the year attributable to ordinary equity holders of the parent entity	442.4	392.0
Weighted average number of ordinary shares outstanding during the year	113,038,156	113,038,156
Basic earnings per share	3.91	3.47
Net profit for the year attributable to ordinary equity holders of the parent entity	442.4	392.0
Weighted average number of ordinary shares outstanding during the year	113,038,156	113,038,156
Diluted earnings per share	3.91	3.47

There are no potentially dilutive instruments in issue.

25. DIVIDEND

In 2013, a dividend of €3.89 per share was distributed.

26. COMMITMENTS

Commitments given

(€ million)	31 December 2013	31 December 2012
Sundry guarantees	22.6	22.8
Work to be performed (1% landscape)	0.1	0.1
Total	22.7	22.9

Sundry guarantees relate to commitments given by AREA in respect of its participating interest in Adelac.

Commitments received

(€ million)	31 December 2013	31 December 2012
Bank guarantees	38.0	26.1
Other	0.0	0.0
Total	38.0	26.1

Reciprocal commitments

(€ million)	31 December 2013	31 December 2012
Works contracts signed but not executed	170.1	151.3

Amounts payable under operating leases

(€ million)	31 December 2013	31 December 2012
Within 1 year	2.4	2.7
Between 1 and 5 years	2.3	3.1
After 5 years	0.0	0.0
Total	4.6	5.7

Amounts receivable under operating leases

(€ million)	31 December 2013	31 December 2012
Within 1 year	34.6	31.7
Between 1 and 5 years	100.0	95.1
After 5 years	64.7	113.9
Total	199.3	240.7

27. RELATED PARTY TRANSACTIONS

Related parties include: (i) entities over which the Group exercises exclusive control, joint control or significant influence (i.e. joint ventures and associates); (ii) shareholders exercising joint control over group joint ventures; (iii) non-controlling shareholders exercising significant influence over the group subsidiaries; and finally (iv) the directors, officers and managers of the Group and the companies over which they exercise exclusive control, joint control or significant influence or in which they hold significant voting rights.

Work carried out by Eiffage group is negotiated on an arm's length basis and after inviting tenders from other construction and civil engineering groups.

Material transactions with related parties are summarised in the table below:

Company	Nature	Type	Amount	Payable (Receivable)
Eiffage Group	Sundry services	Income	0.9	(0.2)
	Work	Charges	114.6	14.4
Eiffarie	Staff made available	Charges	0.9	0.7
Financière Eiffarie	Current account tax group			49.8
Axxès	Heavy goods vehicles remote toll collection	Charges	1.2	(43.0)
Sira	Radio services (Autoroute Info)	Charges	1.6	0.0
	Sundry services	Income	0.2	(0.2)
	Cash advance	Income	0.2	-
	Cash advance	Charges	0.0	0.9
Park +	Cash advance	Income	0.0	(0.1)
	Sundry services	Income	0.1	(0.0)
	Sundry services	Charges	0.0	-
Adelac	Sundry services	Income	4.7	(0.4)
	Sundry services	Charges	0.0	
	Staff made available	Income	0.1	(0.1)
	Cash advance	Income	3.9	(68.8)
Autoroute Trafic	Financial income	Income	0.1	

28. MANAGEMENT INDICATORS

(€ million)	2013	2012
Operating cash flow	868	812
EBITDA	1,475	1,428
EBITDA margin	70.3%	70.0%

EBITDA (earnings before interest, tax, depreciation and amortisation) corresponds to the operating profit on ordinary activities adjusted for employee profit sharing and before amortisation, depreciation and provisions.

Operating cash flow corresponds to the net profit adjusted by adding back depreciation and amortisation expense and provisions and deducting profits on disposals and the share of profit of associates.

29. EVENTS AFTER THE BALANCE SHEET DATE

Autoroutes Paris-Rhin-Rhône (APRR) and Autoroutes Rhône-Alpes (AREA) recently signed contract-based plans with the French State covering the period 2014 to 2018.

These two management contracts, coming after those for the period 2009 to 2013, call for around €500 million of investments to be carried out in return for the application of new tariff formulas for the years 2014 to 2018 based on 85% of inflation plus a fixed increment of 0.37 of a percentage point in the case of APRR and on 85% of inflation plus a fixed increment of 0.41 of a percentage point in the case of AREA.

STATUTORY AUDITOR'S REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

(For the year ended 31 December 2013)

SOCIETE DES AUTOROUTES PARIS RHIN RHONE (APRR)
36, rue du Docteur Schmitt
21850 SAINT APOLINAIRE

To the shareholders,

In compliance with the assignment entrusted to us by your General Meeting of Shareholders, we hereby report to you, for the year ended 31 December 2013, on:

- the audit of the accompanying consolidated financial statements of APRR ;
- the justification of our assessments;
- the specific verification required by law.

These consolidated financial statements have been approved by the Board of Directors. Our role is to express an opinion on these consolidated financial statements based on our audit.

I - Opinion on the consolidated financial statements

We conducted our audit in accordance with professional standards applicable in France; those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit involves performing procedures, using sample techniques or other methods of selection, to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made, as well as the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

In our opinion, the consolidated financial statements give a true and fair view of the assets and liabilities and of the financial position of the Group as at 31 December 2013 and of the results of its operations for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

Without qualifying our opinion, we draw your attention to the matter set out in Note 13 to the financial statements regarding, "Defined benefits obligations and other long-term benefits", which describes the effects of the retrospective application of the revised standard on employee benefits on the data published as of and for the year ended 31 December 2013.

II - Justification of our assessments

In accordance with the requirements of article L.823-9 of the French Commercial Code (*code de commerce*) relating to the justification of our assessments, we bring to your attention the following matters:

- Notes 2.3.2 and 2.10.1 to the consolidated financial statements describe the accounting treatment applied to the Group as regards the recognition of assets arising from concession and their subsequent maintenance. As part of our assessment of the accounting policies applied by the Group, we determined that the accounting policies referred to above and disclosures provided in the notes to the consolidated financial statements are appropriate and these accounting policies were applied properly.
- Notes 2.6 and 10 to the consolidated financial statements describe the accounting methods used to recognise and measure derivative instruments. We assessed the data, assumptions and parameters upon which theses estimates are based and reviewed the calculations.

These assessments were made as part of our audit of the consolidated financial statements taken as a whole, and therefore contributed to the opinion we formed which is expressed in the first part of this report.

III – Specific verification

As required by law, we have also verified in accordance with professional standards applicable in France the information presented in the Group's management report.

We have no matters to report as to its fair presentation and its consistency with the consolidated financial statements.
